| Software Downloads | [Expand] [Collapse] |

⊟ NSIV Viewer
  - Download the latest NSIV Package
  - NSIV Viewer Feedback Form
⊟ ISOVIEW
  - Download ISOVIEW Package (Zip File)
  - Download ISOVIEW 7 License

3. Go to bottom of screen & expand this NSIV Viewer dropdown by clicking upon the "+" sign.

4. Then select the "Standard you support" dropdown and pick your choice; in this case, its "3001" as seen below.

https://mynatec.navair...

Name:	Dube, Barry
Email:	barry.dube@navy.mil
Company:	NAVAIR
NSIV Version Downloading:	3.1.32 ▾
Standard you support:	3001 DTD ▾

Download

5. Then elect Download and save, & then repeat for ISOVIEW set. Also still need NMCI compliant authoring software (PTC's Epic Editor suite) & NAVAIR companion creation business policies, QA & CM rules to consume and create the digital TM (start with NAVAIRInst 4120.11 and NAVAIR 00-25-604, both of which are available on website. See #6 next slide for
